KNIGHTS HVAC/R SUPPORT

Independent Engineering & Quote Audits

Homeowner HVAC Quote Audit Intake

> **Before you sign a $10,000+ contract, get a second opinion.** We don't sell equipment or take contractor kickbacks. We provide 100% unbiased line-item breakdowns so you know exactly what is necessary, what is overpriced, and what questions you must ask before handing over your money.

1. YOUR INFORMATION

City / Zip Code: _____

Square Footage of Home: _____

Why was the contractor called out? (e.g., Routine tune-up, AC stopped working, leaking): _____

2. REQUIRED DOCUMENTS

- [ ] **The Contractor's Written Estimate**
  Text or email a clear photo or PDF of the exact quote you were given. We need to see their line items, the proposed model numbers, and the total cost. If they gave you multiple options (e.g., "Good, Better, Best"), send all of them.

- [ ] **Photos of Your Current Unit Data Plates (Critical)**
  We need clear photos of the manufacturer specification stickers on **both your outside unit (condenser) and inside unit (furnace/air handler)**.

  Why? Contractors often quietly "upsize" units to charge more, which actually causes high humidity and mold in Texas homes. We use these stickers to verify exactly what size and refrigerant you currently have, and if a total replacement is actually justified.

3. DELIVERY SPEED

- [ ] **Standard Audit ($59)**
  Your complete line-item breakdown, price check, and "questions to ask the contractor" delivered within **24 Hours**.

- [ ] **Express Audit ($89)**
  Sitting in a hot house and need answers immediately? Your complete report delivered within **2 Hours**.

How to Submit

Text your quote and photos to **(214) 471-5224** or email them to **shawnknight@knightshvacsupport.com**. Once sent, submit your flat-rate payment via **Zelle**. Your turnaround clock begins instantly. You will receive a clean, easy-to-read PDF report explaining exactly what you should do next.
